

Assess Formulation Composition Compliance with Speed and Confidence

Accelerate compliance for formulas, raw materials and substances using Composition Compliance Management capabilities within Veeva RegulatoryOne.

Analyze entire compositions and confirm constituents meet certification, restriction, inventory listing and other requirements to meet the rapidly evolving compliance needs of your customers and consumers.

Composition Compliance Redefined

View an entire composition, with all its levels, in conjunction with the constituent assessment records in a single screen to maximize composition compliance confidence and speed. Expand or collapse individual levels of the composition to quickly and easily identify subcomponents that are driving overall assessment decisions.

Intuitive, Configurable Composition Viewers

Leverage five predefined assessment groups with over 60 regulated category types spanning inventory, certification, restriction, origin, and regulation. New assessment groups and regulated category types can be easily added through configuration to meet evolving consumer and market requirements.

Consistency and Accuracy

Assessment records for constituent substances and raw materials are displayed in real-time for any composition being viewed, ensuring compliance is always made with the latest data.

Enable Proactive Compliance with Real-time KPIs

Avoid delays by leveraging dashboards, reports and automated reminders to identify missing, outdated and expiring assessment records.

Unlock Composition Claims and Benefits

Proactively identify new product composition innovation and marketing opportunities using assessment insights based on real-time data.

Unify Regulatory Management

RegulatoryOne unifies composition compliance management with regulatory requests, regulatory documents and registration & dossier management capabilities that enable end-to-end regulatory compliance.

Make Compliance Your Competitive Advantage

Customer-Centric

Transparent

Agile

RegulatoryOne Composition Compliance Management Features

Composition Viewer

Make assessments with confidence using a viewer that exhibits assessments for up to 10 levels of composition hierarchy.

Universal Assessment Tool

Assessments for substances, ingredients and raw materials are displayed in relevant composition views in real-time simplifying assessments.

Composition Approval

Use workflow tools to review and approve formulation compositions and raw materials for use.

Real-time Dashboards and Reports

Track KPIs including number of assessments, closure rate, volume, assessment type, missing and out-of-date assessments.

Full Document Control

Manage documents using powerful collaboration and authoring tools including templates, Microsoft Office integration, review, and approval workflows. Find content easily with Google-like search and Amazon-like filtering.

Atomic Security for Total Access Control

Atomic Security allows your Vault Administrators to easily control access, visibility, and permissions to make sure that only the right people do the right things at the right time, without compromising data integrity or history.

Comprehensive Security

Veeva protects customer data with world-class physical, network, application, and data-level security. All communications to Vault and stored content are encrypted. By maintaining an ISO 27001 certified comprehensive security system, we ensure the confidentiality, integrity, and availability of our customers' data.

Formulation Name	Child Type	CAS Number	Function	SVHC	CoRAP	REAC...
Hexacron 90				Y	Y	N
Hexacron	Raw Material		Polymer	Y	Y	N
1,4-Dioxane	Substance	123-91-1	Impurity	Y	N	Y
Methacrylamide	Substance	79-39-0	Monomer	N	Y	Y
1,2-Propane Triol	Substance	56-81-5	Additive	N	N	N
Ethylene Oxide	Substance	75-21-8	Monomer	N	N	Y
Evocron 100	Raw Material		Polymer	Y	N	N
Texapol DOS	Raw Material		Wetting Agent	N	N	N

About Veeva

Founded in 2007, Veeva NYSE (VEEV), is a global provider of industry-specific cloud software solutions that address the unique operating challenges and regulatory requirements of the consumer products and chemical industries. Our solutions help R&D, quality, regulatory and commercial teams eliminate inefficiencies and bring high-quality, safe, sustainable products to market without compromising compliance. Veeva is headquartered in the San Francisco Bay Area, with offices throughout North America, Europe, Asia, and Latin America. [Learn more.](#)
